Dr. Dean Merrill Bodwell

GRADUATE OF AMERICAN SCHOOL
OF OSTEOPATHY.

WHAT IS OSTEOPATHY?

OSTEOPATHY is the system of healing, the basic principle of which is the adjustment of bones, muscels and ligaments and so removing obstructions to all nervous and liquid flow (as of blood, lymph and other fluids) that there may be perfect freedom of all life giving systems, nearly all diseases being caused by these obstructions. I have been six years in this district and will be pleased to refer interested parties to well known citizens cured by me.
