Elkton

A settlement of miners without a municipal organization. The ground is owned by various mining companies and there are no city lots. Some of the large mines of the District are located here and the place is very prosperous. The Florence & Cripple Creek and Midland Terminal Railroads, also the Low Line Electric pass through Elkton proper. In the names given below we combine Elkton, Eclipse, Arequa, Beacon Hill and adjoining territory, giving the residence after each name where possible. A fair estimate of the population would be about 2,000.

GILLETT

303

Gillett.

The location of Gillett, at the foot of Pike's Peak, is the finest in the District. Its remoteness from the working mines has told against it, and at the present time its population is at a very low ebb. It is not at all improbable that something may occur at any time which will "boom" the town. Gillett is located five miles northwest of Cripple Creek by wagon road and ten miles north of Victor by the Midland Terminal Railroad. Population about 250.
