GOLDFIELD

Goldfield.

Located at the foot of Bull Hill and Battle Mountain, Goldfield is the natural residence place for the large force of men employed in the great mines of the District. It has all the requirements of a city of the first class—splendid water, good schools and churches, fire department, comfortable residences and store buildings. Its people are enterprising and progressive and its society is of the best. Victor is only one and a half miles away and Cripple Creek four and a half miles, with trains and electric cars running every few minutes. The incorporation of Goldfield includes a considerable portion of Independence, but for convenience we make the Midland Terminal tracks a bordering line. We should estimate the population at about 3,000.

Independence.

The typical mining town of the District. Surrounded on all sides by great producers, with rich ore hoisted daily from properties in and near its principal business street, it has all the appearances of the ideal mining camp. Independence has no city government of its own, but a large portion of the town is within the corporate limits of Goldfield. For convenience in compiling we have put all residents above the Midland Terminal tracks in Independence. The names below would indicate a population of about 1,000.
